Education

Galgotias University

B.Tech - Computer Science (CGPA: 8.57/10)

Greater Noida, India
2022 – 2026 (Expected)

N.E Railways Boys Inter College

Intermediate - 92%

Gorakhpur, UP

2021

Savitri Public School

High School - 88.2%

Partawal Chowk, UP

2019

Technical Skills

Programming Languages: Python, Java, JavaScript

AI & Machine Learning: Basic ML concepts, Data Processing, Familiarity with TensorFlow, PyTorch

Web Technologies: ReactJS, NodeJS, ExpressJS, HTML5, CSS3

Cloud & DevOps: AWS, GCP, Azure (basics), CI/CD

Distributed Systems: REST APIs, Microservices, Cloud Computing

Databases & Backend: MySQL, MongoDB, Supabase

Development Tools: Git, GitHub, JIRA

Soft Skills: Problem-Solving, Communication, Teamwork, Adaptability, Quick Learner

Experience

iOS Developer Intern

Infosys Campus, Mysore

10th Mar 2025 – 4th Apr 2025

India

- Developed secure iOS applications with Swift and SwiftUI, implementing industry-standard protocols.
- Integrated Supabase for backend services and user authentication, reducing login friction by 40%.
- Implemented real-time monitoring using Firebase Firestore and RESTful APIs.
- Utilized SMTP for automated notification systems and reporting functionalities.
- Collaborated in an Agile environment using Jira for project management to ensure 95% test coverage.

Frontend Web Development Intern

Motion Cut Video Studio, Lucknow

Oct 2023 – Nov 2023

India

- Designed and implemented responsive web dashboards with React, HTML5, and CSS3 .
- Reduced page load time by 35% through code optimization and modern frontend techniques.
- Created reusable UI components that improved development efficiency by 25%.
- Implemented secure form validation and data handling practices, enhancing user data protection.

Projects

AInterView - AI-powered interview preparation platform

Jan 2024 – Mar 2024

- Developed a modern web application for AI-powered job interview preparation, featuring realistic voice interviews and instant feedback.
- Implemented secure authentication, real-time feedback, and a responsive dashboard for tracking interview performance.
- **Tech:** Next.js, Firebase, Tailwind CSS, Vapi AI, shadcn/ui, Google Gemini, Zod
- **GitHub:** [AInterView](#)

Faby - iOS App for Toddlers (1-3 Years)

Aug 2024 – Dec 2024

- Built an iOS app for tracking toddler growth, meals, and vaccination.
- **Features:** GrowTrack, VacciAlert, TodBite, Toddler Talk
- **Tech:** Swift, SwiftUI, Firebase, Supabase, Xcode
- **iOS Framework:** Mapkit, EventKit
- **GitHub:** [Faby](#) | **Drive:** [Demo](#)

Fleet Management System - iOS App for Fleet Management

Oct 2024 – Feb 2025

- Designed and developed an iOS app to manage fleet trips, vehicle maintenance, and emergency tasks with role-based user access.
- **User Roles:** Fleet Manager, Driver, Maintenance Personnel
- **Features:** Trip assignment, Maintenance logging, SOS alerts, Task history, Role-based access control
- **Tech:** SwiftUI, Supabase (database and auth), Firebase (notifications), Jira (agile sprints), MapKit, EventKit
- **Tools:** Agile development using Jira for sprint planning and task tracking
- **GitHub:** [Fleet-Master](#)

Certifications & Leadership

MERN Stack Intern Certificate – MongoDB, Express.js, React.js, Node.js. [LINK](#)

Frontend Web Dev Intern Certificate – HTML, CSS, JavaScript, React. [LINK](#)

iOS Developer Intern Certificate – Swift, SwiftUI, Firebase. [LINK](#)

Leadership: Volunteer at Strayniya Delhi NGO; Cricket Captain for district team.
